BACKGROUND INFORMATION: The existing asphalt concrete paving along 290 feet of 19th Street, from City Limit to Osbun Road, and along 430 feet of Osbun Road, from 19th Street to Niles Street, in the San Bernardino Area has deteriorated and is in need of rehabilitation and drainage improvement. The project will consist of removal and replacing of some curb and gutter, installation of miscellaneous concrete drainage structures, compaction of native soil, and placing 0.35' Type A, 1/2" Max., Med., AR4000 concrete asphalt. Accordingly, the Department proposes to rehabilitate and improve the drainage system at this location. The work will be performed within the existing road right-of-way.

On August 19, 2003, the Board found the project to be exempt under the California Environmental Quality Act (CEQA), approved the project as defined in the Notice of Exemption, and directed the Clerk to post said notice. Board approval is required to approve plans and specifications (which are on file with the Department) and to authorize the Director to advertise for bids on local agency construction projects in accordance with Sections 20124 and 20125 of the California Public Contract Code.

REVIEW AND APPROVAL BY OTHERS: This item was reviewed by Deputy County Counsel Charles S. Scolastico (387-5481) on October 15, 2004 and by the County Administrative Office (Tom Forster, Administrative Analyst, 387-4635) on November 24, 2004.

FINANCIAL IMPACT: The actions to approve plans, specifications and authorize advertisement for bids have no financial impacts. The total project cost is estimated at \$67,000, which will be financed by Gas Tax Funds (\$57,693) and City of San Bernardino participation (\$9,307), which are included in the Fiscal Year 2004/2005 Transportation Budget (SAA-TRA-TRA-15 H13519).
